

AUTHORITIES AND REFERENCES

This section lists references used to prepare the Westmoreland County HMP. Existing plans and studies were reviewed and integrated into the HMP. Each reference is cited where its information or data was used in developing the HMP. Technical data and information, such as the locations of critical facilities and geographic information systems (GIS) data on hazard areas, was incorporated into the vulnerability assessment in each of the hazard profiles in Section 4.3. Section 4.4 details how GIS analysis, including HAZUS-MH, was performed and incorporated.
